## 1. Introduction

In the spirit of promoting the highest level of professional and ethical conduct, as well as the principles of treating customers fairly, this INTERNAL COMPLAINTS & RESOLUTION OF COMPLAINTS POLICY was adopted by the Key Individual(s) of the Financial Services Provider (“FSP”), who resolved that each overseeing individual, representative, and staff member of the FSP should abide by the provisions of this policy and pledge their cooperation and commitment by signature thereof.

## 2. What Constitutes a Serious (Non-Routine) Complaint?

“**complaint**” means, subject to section 26(1)(a)(ii) of the FAIS Act (37 of 2002), a specific complaint relating to a financial service rendered by an FSP or representative to the complainant on or after the date of commencement of the FAIS Act, and in which complaint it is alleged that the provider or representative –

- has contravened or failed to comply with a provision of the Act and that as a result thereof the complainant has suffered or is likely to suffer financial prejudice or damage;
- has willfully or negligently rendered a financial service to the complainant which has caused prejudice or damage to the complainant or which is likely to result in such prejudice or damage; or
- has treated the complainant unfairly.

## 3. What Constitutes a Routine Complaint?

The FSP is committed to delivering a high standard of service to its clients and fully embedding the Treating Customers Fairly principles within the organization. For this reason, it has been decided that routine client complaints need to be recorded and tracked for quality control purposes.

The following are examples of routine complaints:

- Failure to provide proper and regular follow-up with product providers regarding instructions submitted;
- Failure to perform client instructions;
- Delay in turnaround times for processing of client instructions;
- A lack of feedback to the client regarding the processing of instructions;
- Poor attitude of servicing staff;

#### 4. Basic Principles of the Complaints Resolution System

The FSP is committed to maintaining an internal complaint resolution system and procedures based on the following:

- maintenance of a comprehensive complaints policy that outlines the FSP's commitment to, and system and procedures for internal resolution of complaints;
- transparency and visibility, ensuring that clients have full knowledge of the procedures for resolution of their complaints;
- accessibility of facilities, ensuring the existence of easy access to such procedures at the office provider open to clients, or through ancillary postal, fax, telephone, or electronic helpdesk support; and
- fairness, ensuring that a resolution of a complaint can, during and by means of the resolution process, be affected which is fair to both clients and the FSP and its staff.

#### 5. How to Lodge a Serious Complaint

Any client who feels that he/she has been prejudiced in any way by the FSP or its staff and who wishes to lodge a complaint against the FSP must do so in writing as well as provide full details accompanied by supporting documentation.
